

ST. PAUL'S UCC PRESCHOOL PHILOSOPHY

At St. Paul's UCC Preschool we believe that each child is a unique gift from God and must have a stimulating educational environment where they can grow physically, cognitively, emotionally and socially. We believe that every child has something special they bring to their own education so we give our students access to a multitude of varied hands-on activities through many learning centers that allows their curiosity to direct their schooling. We believe that learning is a life-long process and we strive to foster a love of learning that students will use for the rest of their lives.

GOALS OF OUR PRESCHOOL

We encourage each child's Social—Emotional Development, Cognitive Development in Math & Science, Cognitive Development in Language Skills, Physical Development in Gross and Fine Motor Skills, all while building the positive Character of the students in Christian Love.
